

The focus of this interdisciplinary workshop is to provide an introduction to modelling the effects of diabetes progression on outcomes and costs, present examples of existing diabetes simulation models, and discuss the potential use of risk equations and diabetes models as prognostic tools in clinical practice.

### Speakers

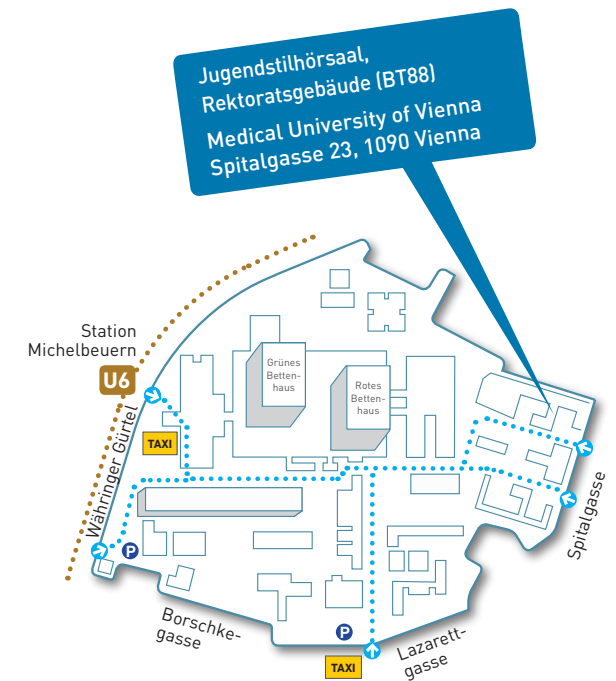

Christian Asseburg  
ESiOR Oy, Kuopio, Finland

Alastair Gray  
HERC, Nuffield Department of Population Health,  
University of Oxford, UK

Rury Holman  
Diabetes Trials Unit, University of Oxford, UK

Phil McEwan  
SCHE (Swansea Centre for Health Economics),  
Swansea University, UK

Patrick J. O'Connor  
Center for Chronic Care Innovation, HealthPartners  
Institute for Education and Research, USA

## Invitation

# Workshop: Diabetes simulation models as prognostic tools

15 September 2014, 2 – 6 p.m.  
Medical University of Vienna,  
Jugendstilhørsaal, BT 88, Ebene 2/Level 2  
Spitalgasse 23  
1090 Vienna

### Registration

Participation at the workshop is free. However, as places are limited, pre-registration for the event via email to [dhe@meduniwien.ac.at](mailto:dhe@meduniwien.ac.at) is necessary. Places will be allocated in the order of registration.
