Heidelberg, 24<sup>th</sup> April 2015

Dear colleague,

The FEBS Immunology Summer School, which was established in 1978 and originally took place at Ionian Village in Greece, is now held for the fourth time in Croatia. This year's location will be Rabac, a little town on the beautiful Istrian peninsula in Northern Adriatic. I am happy to announce the

**18<sup>th</sup> International Summer School of Immunology**  
**12-19 September 2015**  
**Rabac, Croatia**

Once again, the Immunology Summer School wants to give students a deeper insight into the basic knowledge and novel developments in immunology, as well as foster maximal interactions between young immunologists in Europe and the world. The format is, therefore, a combination of lectures, discussion and poster sessions, with opportunities for students to present and discuss their own work.

The Summer School is limited to 105 participants (PhD students, early postdocs). Please find attached the poster advertising the event. We appreciate your support in displaying the poster in your departments or your affiliated institutions and by encouraging your best PhD students and early postdocs to apply and to benefit from this unique opportunity for early stage researchers.

**The deadline for registration is July 1<sup>st</sup>, 2015. More information about the event can be found at [www.febs-immunology-course.org](http://www.febs-immunology-course.org).**

Your students should apply as early as possible.

With best regards,

for the Organizing Committee

(Meinrad Busslinger, Diane Mathis, Bojan Polic, Klaus Rajewsky, Michael Reth and Hans-Reimer Rodewald)
