March, 27th, 2012

Dear delegates,
dear colleagues,

I would like to draw your attention to a one day symposium on "Information transfer in medicine - Legal issues in CME/CPD accreditation", organized by the European Cardiology Section Foundation (ECSF) and to be held on Sept. 13th, 2012 in Cologne (Germany).

Those of us who are frequently organizing meetings, which are sponsored by industry, are facing more and more complex and rigorous regulations regarding cooperation with industry. In this situation the roles of speakers/authors, even participants, providers, sponsors and accreditors, respectively, need to be discussed.

This conference aims at an updated definition on how to handle sponsoring in accredited CME/CPD. Please save the date and find further information on the ECSF website under <http://e-cs-f.org/en/news/save-the-date.html> in the future.

I would very much appreciate if you could circulate this invitation to all those persons and institutions in your country which might have an interest in this conference (regulatory authorities, national accreditors, providers etc.)

I hope to see you in Cologne and remain with

best regards

Prof. Reinhard Griebenow, MD, PhD, FESC
President, UEMS Cardiology Section
Chairman ECSF Board
