## Call For Abstracts Extended

**Fontainebleau Miami Beach  
4411 Collins Ave  
Miami Beach, FL, 33140, USA**

**Friday/Saturday, May 30-31, 2014**

***Abstract Submission Deadline Extended to Monday, March 31, 2014***

***Submit an Abstract***

Based on your feedback, the **BrachyNext** co-chairmen Janusz Skowronek, MD, PhD, and Tim R. Williams, MD, and our Organizing Committee are pleased to announce that the call for poster abstracts deadline has been extended to allow more time for abstract preparation.

Abstracts can be submitted by visiting <http://brachynext2014.exordo.com>.

The submission deadline has been extended to **Monday, March 31, 2014**. The Abstract Review Committee will assess all abstracts to identify those that support the objectives of the symposium and advance the future of brachytherapy. Authors will be notified by April 21, 2014 if their abstract has been accepted for poster presentation at the symposium.

This symposium will present the most up-to-date information on brachytherapy. Please consult the [BrachyNext website](#) for an updated agenda. It will focus on new advancements and implementation of state-of-the-art brachytherapy, and jointly identify next steps to advance its clinical relevance.

Abstracts that are accepted for poster display at this symposium will be published in a supplement to the *Journal of Contemporary Brachytherapy*. If your abstract is accepted by the

committee, you will be required to complete a copyright release to include your abstract in the journal supplement.

Abstracts are being accepted in most categories of brachytherapy including, but not limited to:

#### Brachytherapy Clinical Applications

- Breast
- Prostate (including LDR and HDR)
- Gynecology
- Skin
- Head and Neck
- Rectum
- Bladder
- Lung
- Esophagus
- Sarcoma
- Palliative Care
- Liver

#### Technology and Organization

- Radiation Physics
- Radiobiology and Radioprotection
- Imaging for Brachytherapy
- Economic Implications, Opportunities and Challenges
- Breakthrough Technologies
- Challenges in Developing a Brachytherapy Program

The submitting author will be asked to designate a presenting author who will be attending the symposium and will be responsible for hanging and removing their poster at the designated times. The submitting author will also be asked to designate a corresponding author that will appear in the published abstract.

Attendees for the conference must register at [www.cancereducation.com/brachynext/](http://www.cancereducation.com/brachynext/). Submitting an abstract for presentation does not constitute registration for the conference.

We thank you in advance for your submission and look forward to an exciting conference.

#### Abstract Format Details

- Abstracts should be no more than 250 words
- The submitting author will be asked to categorize their abstract based on the topics listed above, or "other".
- The submitting author is obliged to ascertain that all authors are aware of the content of the abstract before submission.
- Abstract titles should be brief (maximum 100 characters) and reflect the content of the abstract. Do not use capital letters in the title except for words that are always capitalized and do not use non-standard abbreviations.
- Abstracts should be structured in such a way as to include (1) Purpose; (2) Material and Methods; (3) Results; (4) Conclusions.

- Please refrain from using references in the abstract. If references must be used, please use sequential numerical notation in the text as superscript. Please do not use linked field codes (such as those produced by Endnote).
- The use of standard abbreviations is desirable. A special or unusual abbreviation must be placed (in round brackets) after the first appearance of the word for which it stands.
- We prefer the use of a 'standard' font, preferably 12-point Arial. For Mathematical symbols, Greek letter and other special characters, use normal text or Symbol font. Word Equation Editor/MathType should be used only for formula that cannot be produced using normal text or Symbol font.
- All abstracts are to be submitted in Word format (.doc, .docx). Please include your title in sentence case and authors (including institution and country) in your Word document.
- Authors may include one data table in the body of the abstract in JPG format (this is not included in the number of characters).
- Authors may include one image in JPG format. The maximum file size of each image should be 500 KB. The maximum pixel size of the image is 600(w) x 800(h) pixel.
